Did you hear it? I think I did, but it wasn't very large. But it was kind of loud.

Power Principles, Part 2.

In the January/February Harmonizer, editor Lorin May presented an excellent article about the Cape Breton Chordsmen, Power Principles, Part 2. In this well crafted article with its strong headers, May uses the following quotes to sub-head major segments of the Cape Breton success story. I believe that each of us can construct, at least in our heads, a story about our own Baylander Chorus with these same quotes as thought topics. Why don't we each do that very thing?

Success is how high you bounce when you hit bottom.

George S. Patton

Nothing limits achievement like small thinking.
Nothing equals possibilities like unleashed thinking.
William Arthur

He that will not apply new remedies must expect new evils, for time is the greatest innovator.
Francis Bacon

Success seems to be largely a matter of hanging on after others have let go.
William Feather

Success isn't a result of spontaneous combustion. You must set yourself on fire.
Arnold H. Glasow

Success is a science, if you have the conditions, you get the results.
Oscar Wilde

Success is a lousy teacher. It seduces smart people into thinking they can't lose.
Bill Gates

If each of us takes a legitimate amount of time to think seriously about the seven ideas above, it is my firm belief that this chorus, our chorus, can place itself in a very good position to grow.

I wonder how long a general meeting, in a free-for-all style such that every man would have an opportunity to make recommendations and suggestions that they feel would improve this barbershop chorus in any way, would last?

Until that meeting, PLEASE pass your ideas on to any board member for inclusion in discussion at the next board meeting.
